

*Your most critical responsibility is to keep your athlete safe at all times.  
Please be alert and ready to respond in situations that may be risky.*

<b>FIELDING</b>		
<b>POSITION &amp; READINESS:</b> <ul style="list-style-type: none"> <li>• There are no assigned positions in the field. Encourage your athlete to choose a position each inning and field balls that come to that area. Occasionally, however, we may intervene in order to give as many players as possible a turn to field a batted ball.</li> <li>• Fielders should be behind the arc (a safe distance from the batter).</li> <li>• Avoid standing in the base paths.</li> <li>• <b>Stand diagonally in front of your athlete so you will be in position to protect him or her from a batted or thrown ball if necessary. This is especially important if your athlete is in a wheel chair or using a walker.</b></li> <li>• <b>Before each play begins, the umpire will look for a signal that you and your athlete are ready. Nod or give him a “thumbs up” to indicate readiness. IF YOU ARE NOT READY, don’t hesitate to communicate this!</b></li> <li>• <b>When your athlete is ready to throw a ball, be sure the receiver (and anyone in proximity to the intended receiver) is ready to catch it.</b></li> </ul>		
	blooper	hard hit ball
Athlete with unlimited mobility	<ul style="list-style-type: none"> <li>• Allow player to field the ball alone</li> <li>• Direct player to throw the ball to the pitcher (SR) OR the umpire (JR). With Juniors, be sure the umpire is ready for the throw and baserunners have already scored before throwing the ball.</li> </ul>	<ul style="list-style-type: none"> <li>• If ball is going into the outfield, LET IT GO!</li> <li>• Encourage a player to go after the ball &amp; remind him/her where to throw it if necessary.</li> <li>• If it is hit in the infield, knock it down if necessary and allow a player to field it. (Don’t knock a ball down unless you need to do so to protect a player!)</li> </ul>
Athlete with limited mobility (walker, wheel chair)	Field the ball or ask another player to field the ball and hand it to your athlete to throw or hold momentarily. You can assist a child who has difficulty releasing the grasp of the ball by gently guiding his or her hand downward at the wrist. When talking with an athlete in a wheel chair, always position yourself on his or her eye level and talk face-to-face.	
At the end of an inning, all players and buddies should remain on the field until the last baserunner scores.		

<b>BATTING</b>	
<ul style="list-style-type: none"> <li>• If necessary, help your athlete choose a bat and get into batting position.</li> <li>• While the athlete is batting, stand out of bounds halfway down the first base line. Stay alert for foul balls!</li> <li>• Some players will need guidance on where to run. In this situation, move toward first base and encourage your athlete to run toward you.</li> </ul>	
Thrown pitch	Batters will be allowed 7 good pitches. If there is no success at hitting a pitch, the coaches will intervene and encourage the athlete to use the tee.
Tee	The umpire will set the tee and place the ball when fielders are ready. Some batters will need physical support while swinging the bat. Others may need encouragement and/or help with swinging. Don’t hesitate to provide this when needed.
Batting Device	The umpire will position the batting device. Be responsible for getting your athlete into position and stay with him or her while batting. Assist as necessary in moving toward first after hitting the ball.

<b>BASERUNNING</b>	
In most cases, runners advance one base each time a batter hits the ball. You may need to direct your athlete where to run or move in front of him or her and provide a target instead of pointing.	
In most cases, you should run with your athlete and stay close enough to protect him or her from a batted or thrown ball (we encourage you to carry a glove if you are in the SR division).	
Several players are very independent, and will resent close shadowing. Your responsibility for the player’s safety does not change, but we will help you look for alternative ways of providing protection (notifying other buddies on the field, etc.)	
Before allowing your player to run toward home plate to score, be sure the previous runner is out of the way and the area is clear.	

<b>END OF GAME</b>	
Assist coaches with lining up the players to shake hands. Get in line with your player and participate in this important ritual.	
Remind your athlete to shake hands <b>gently</b> and watch to be sure this is done.	
Stay with your athlete until a family member meets you. Eat snack with the team only if invited by the parent who is providing it.
